17.9 3.0 MI E. BEAVER EXIT – TURN LEFT This is the first left you can make after you have driven almost completely around Penrose-Rosemont reservoir. It is U.S. Forest Service Road 372. You will drive down a steep hill and see a gate on your left but go right and follow the road which will take you to the base of the reservoir. Veer right and follow this road to the H.C. Rathke gate. MOST PEOPLE MISS THIS TURN—SO PLEASE, take the very first road on the left after seeing the reservoir AND if you are over 18 miles from the start at I-25 and Circle Drive, you have missed the turn! The “USFS 372” sign cannot be seen from the Gold Camp Road—if not shot or removed it is down the road about 25 feet on the right hand side.
